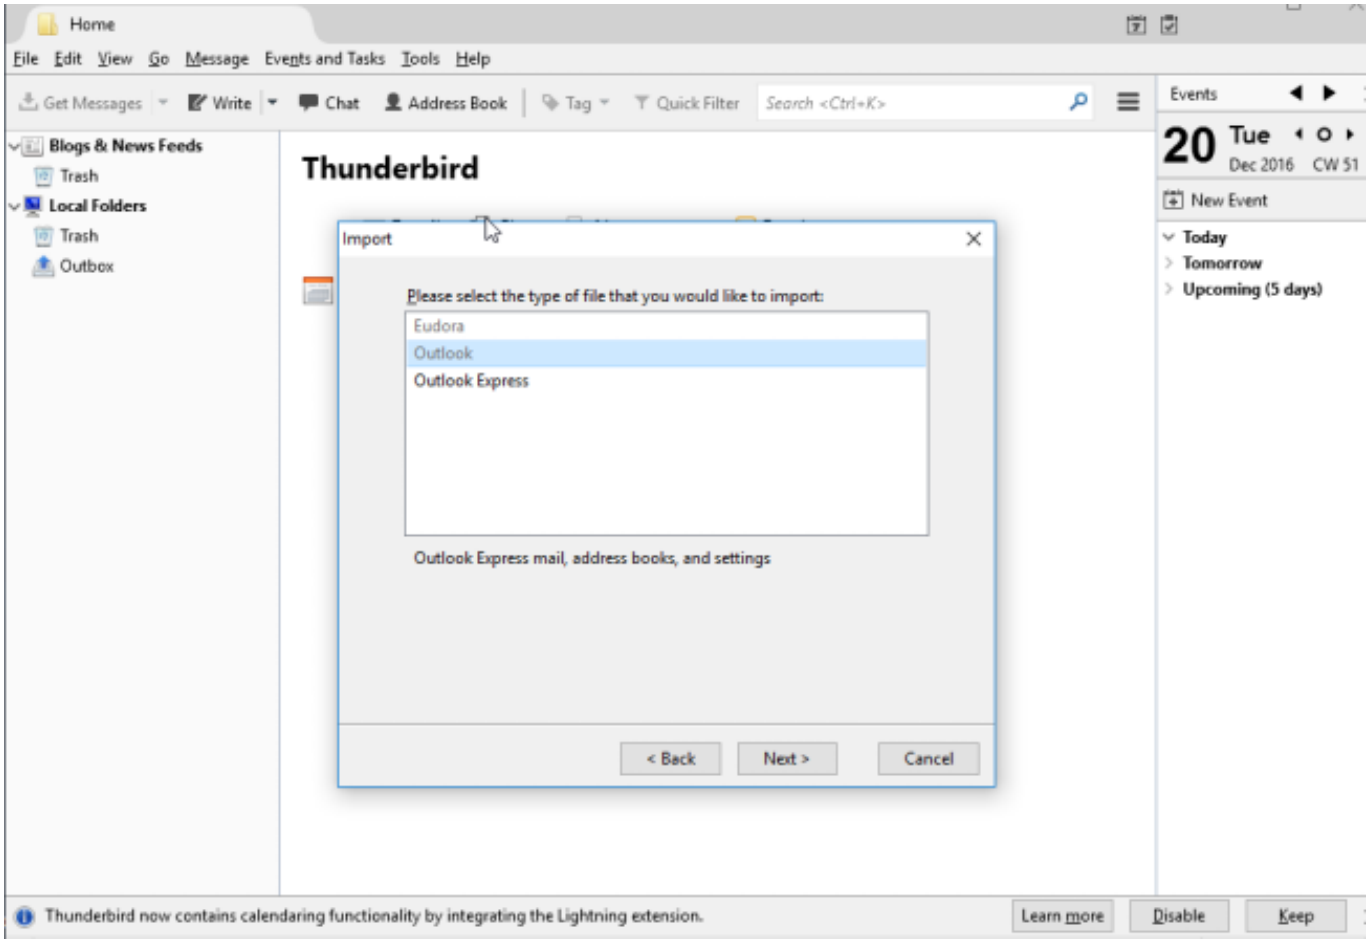
Backup i migriranje klijenata elektroničke pošte 2.dio

Nastavljamo priču iz prošlog članka [1]. Za razliku od nekadašnjeg formata *mail* arhive, novi *.pst* format ima druga pravila pri prebacivanju u npr. *Thunderbird*. Sam *Thunderbird* klijent ne može prepoznati i uvesti arhivske *.pst Outlook* datoteke kao nekad *.dbx* zapis koji je koristio *Outlook Express*. To nam je ranije olakšavalo prebacivanje sa zastarjelog *Outlook Express* klijenta u npr. *Thunderbird*.



Radi toga moramo koristiti dodatni konverter. Pronašli smo *MailStore Home Portable* [2] softver. On nam jednostavnim odabirom *Archive E-mail --> Microsoft Outlook --*> dohvati arhivske *.pst* datoteke sa vanjskog diska i uveze kroz *Wizard* koji stvori *Outlook* profil.

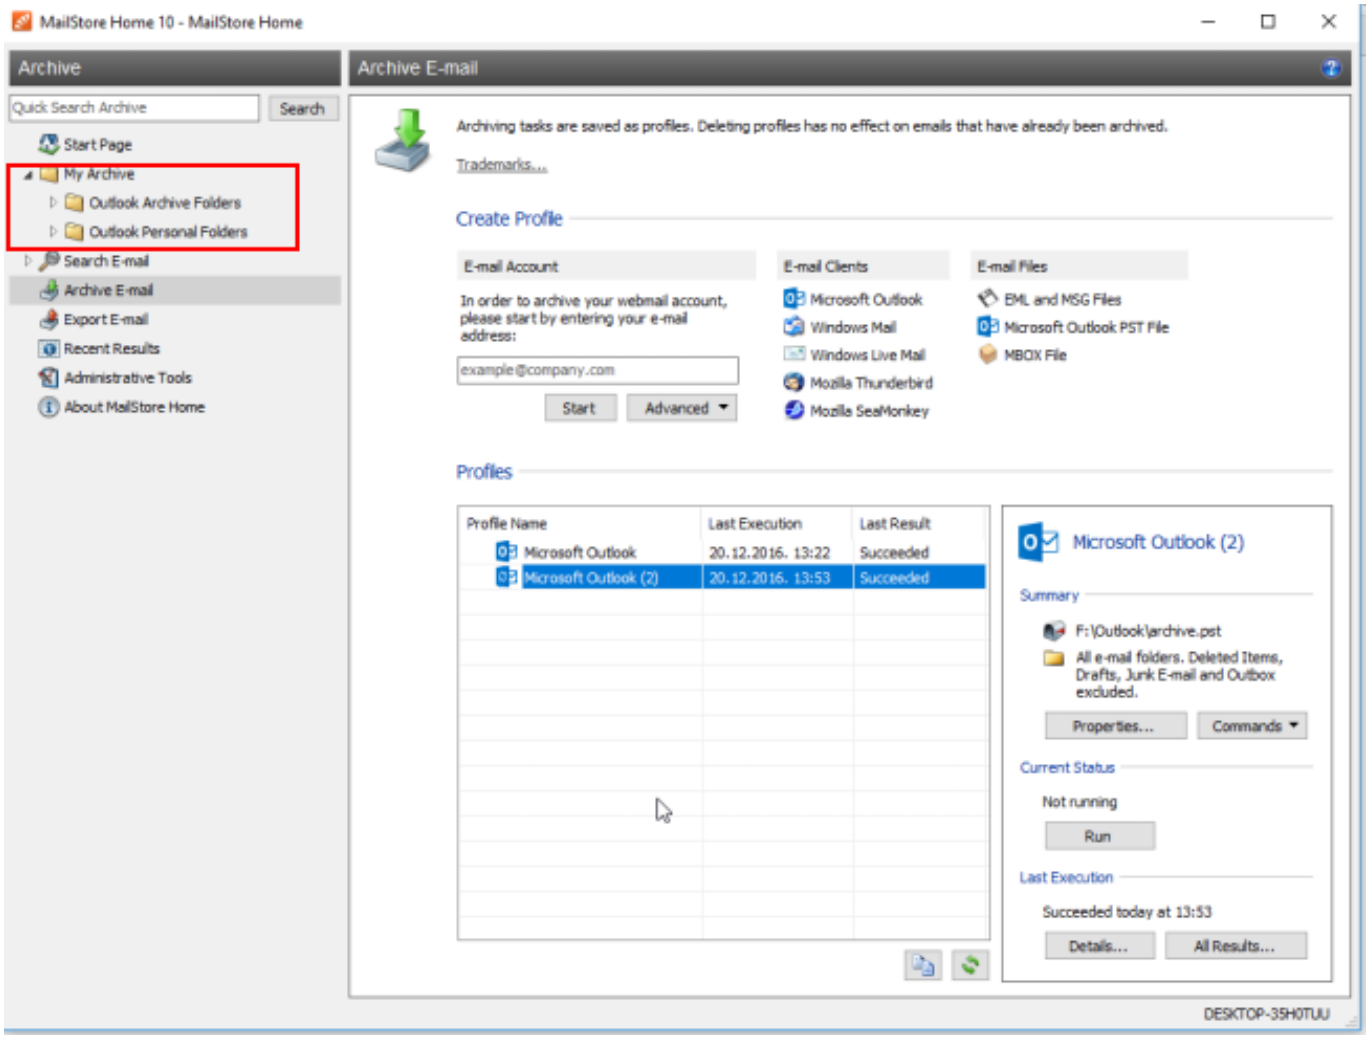
Nakon uvoza *archive.pst* i *Outlook.pst* imamo stvorene 2 arhive sa 2 pripadajuća profila.



Za slijedeći korak uvoza arhiva u *Thunderbird* obavezno je napraviti korisnički profil koji za testiranje bez e-mail *accounta* može biti *Newsgroups* . Bitno je da *Thunderbird* stvori korisnički direktorij. Koristili smo *Thunderbird* verzije 45.5.1.

Za potrebe "rudarenja" e-mail adresa u obliku *Thunderbird* ekstenzije pronašli smo *EmailCrawler* [3] 5.1.2. Unosimo ga ručnim putem *Tools -> Add-ons-> Install Add-on From File.. -> emailcrawler-5.1.2.xpi* jer ga nema u standardnom *Get Add-Ons* sustavu.

Prije nego počnemo pretraživati e-mail adrese stvorimo 2 adresara po kriteriju "Od" i "Za". Imenujemo ih *FROM* i *TO*.
File-> New -> Addres Book.. -> New Address Book -> Address Book Name -> FROM
File-> New -> Addres Book.. -> New Address Book -> Address Book Name -> TO

Napokon možemo pristupiti prikupljanju adresa. Desnim klikom na ciljanu arhivu potražimo u ponudi opciju *Crawl folder for email addresses* te po odabranom kriteriju napravimo spremanje u traženi adresar.

Odvojili smo e-mail adrese od ostalog sadržaja, tako da sad možemo manipulirati imenikom i prebacivati ga u druge e-mail klijente. Postoje i tu specifičnosti vezane za različite formate, ali tu problematiku obradit ćemo u narednom nastavku [4].
