

Trideset godina SPAM-a

Gary Thuerk iz tvrtke DEC je 3. svibnja 1978. poslao prvu neželjenu elektroničku poruku (spam). U toj poruci predstavio je ponudu za tada najnoviju grupu DEC-ovih računala te je poslao na e-mail adrese 600 korisnika mreže ARPAnet. Ova poruka je izazvala burne reakcije, osobito zbog toga što je mreža ARPAnet stvorena za potrebe američke vlade.

Danas je neželjena elektronička pošta postala dio svakodnevnog života i procjenjuje se da se dnevno pojavi 100 milijardi takvih poruka.

U nastavku slijedi uvodni dio prve neželjene elektroničke poruke.
