

Informacije o poslužiteljskom hardware-u

naredba: lshw

Postoji mnogo načina na koje možete doznati od kakvog se hardwarea sastoji vaše poslužiteljsko računalo, a korištenje naredbe lshw je zasigurno među najjednostavnijima. Naredba dolazi kroz paket lshw koji je potrebno instalirati standardnim putem:

```
apt-get install lshw
```

Naredba ispisuje detaljne informacije o hardwareu. Skraćena opcija daje ispis svih dijelova po klasi (memorija, procesor, ...).

```
lshw -short
```

Dio ispisa:

```
...
/0/100/f.1/1/0 /dev/hdc disk SAMSUNG DVD-ROM SD-616T
/0/2/1.0.0 /dev/sda disk 36GB LD0 RAID0 34678R
/0/2/1.1.0 /dev/sdb disk 36GB LD1 RAID0 34678R
/0/2/1.2.0 /dev/sdc disk 36GB LD2 RAID0 34678R
...
```

Ukoliko vas zanima samo neki segment ispisa, naredbi se može dodati opcija, primjerice:

```
lshw -C disk
```

Dio ispisa:

```
*-cdrom
description: DVD reader
product: SAMSUNG DVD-ROM SD-616T
physical id: 0
bus info: ide@1.0
logical name: /dev/hdc
version: F310
capabilities: packet atapi cdrom removable nonmagnetic dma lba iordy audio dvd
configuration: mode=udma2 status=nodisc
*-disk:0
description: SCSI Disk
product: LD0 RAID0 34678R
vendor: MegaRAID
physical id: 1.0.0
bus info: scsi@0:1.0.0
logical name: /dev/sda
version: 3.18
size: 33GiB (36GB)
capabilities: partitioned partitioned:dos
configuration: ansiversion=2 signature=000b1563
```
