Mali sistemac u velikom sustavu (kako se snaći?)

Branko Radojević (CARNet)

**Kako bi ste vi opisali
sistemca kao osobu?**

**Kako bi ste vi opisali
njegovo radno
mjesto?**

Kako nas vidi struka?

This occupation combines several different disciplines in order to create, purchase and/or install a computer system that is appropriate for each client.

These individuals provide advice to clients regarding the appropriate hardware and/or software to ensure that their computer systems meet their needs. He or she may also be involved in a hands-on manner during the acquisition, installation, testing, and implementation phases of the project. He or she evaluates current systems for effectiveness, makes recommendations regarding the scalability of such systems, and troubleshoots any problems that arise during the use of the system.

Kako nas vidi struka? (2)

With the growing focus of online information sharing, an individual in this occupation reviews a company's security requirements, its use of online applications ranging from a company web page to online purchasing or personal data exchange, and recommends the security measures that will allow the company to function in a digital world without compromising its clients' sensitive data.

He or she also provides his or her clients with guidelines regarding system capabilities, user interface, security measures, and other applicable information so that the client can operate the system on a daily basis and troubleshoot minor difficulties.

**Što mislite kako vas
zamišlja vaš
dekan/ravnatelj?**

**Kako bi vaš
dekan/ravnatelj
opisao ono što vi
radite?**

Mali sustav = obitelj
Svi se osobno poznavaju
Lakša dostupnost do nadređenih
Lakše probijanje ideja prema gore

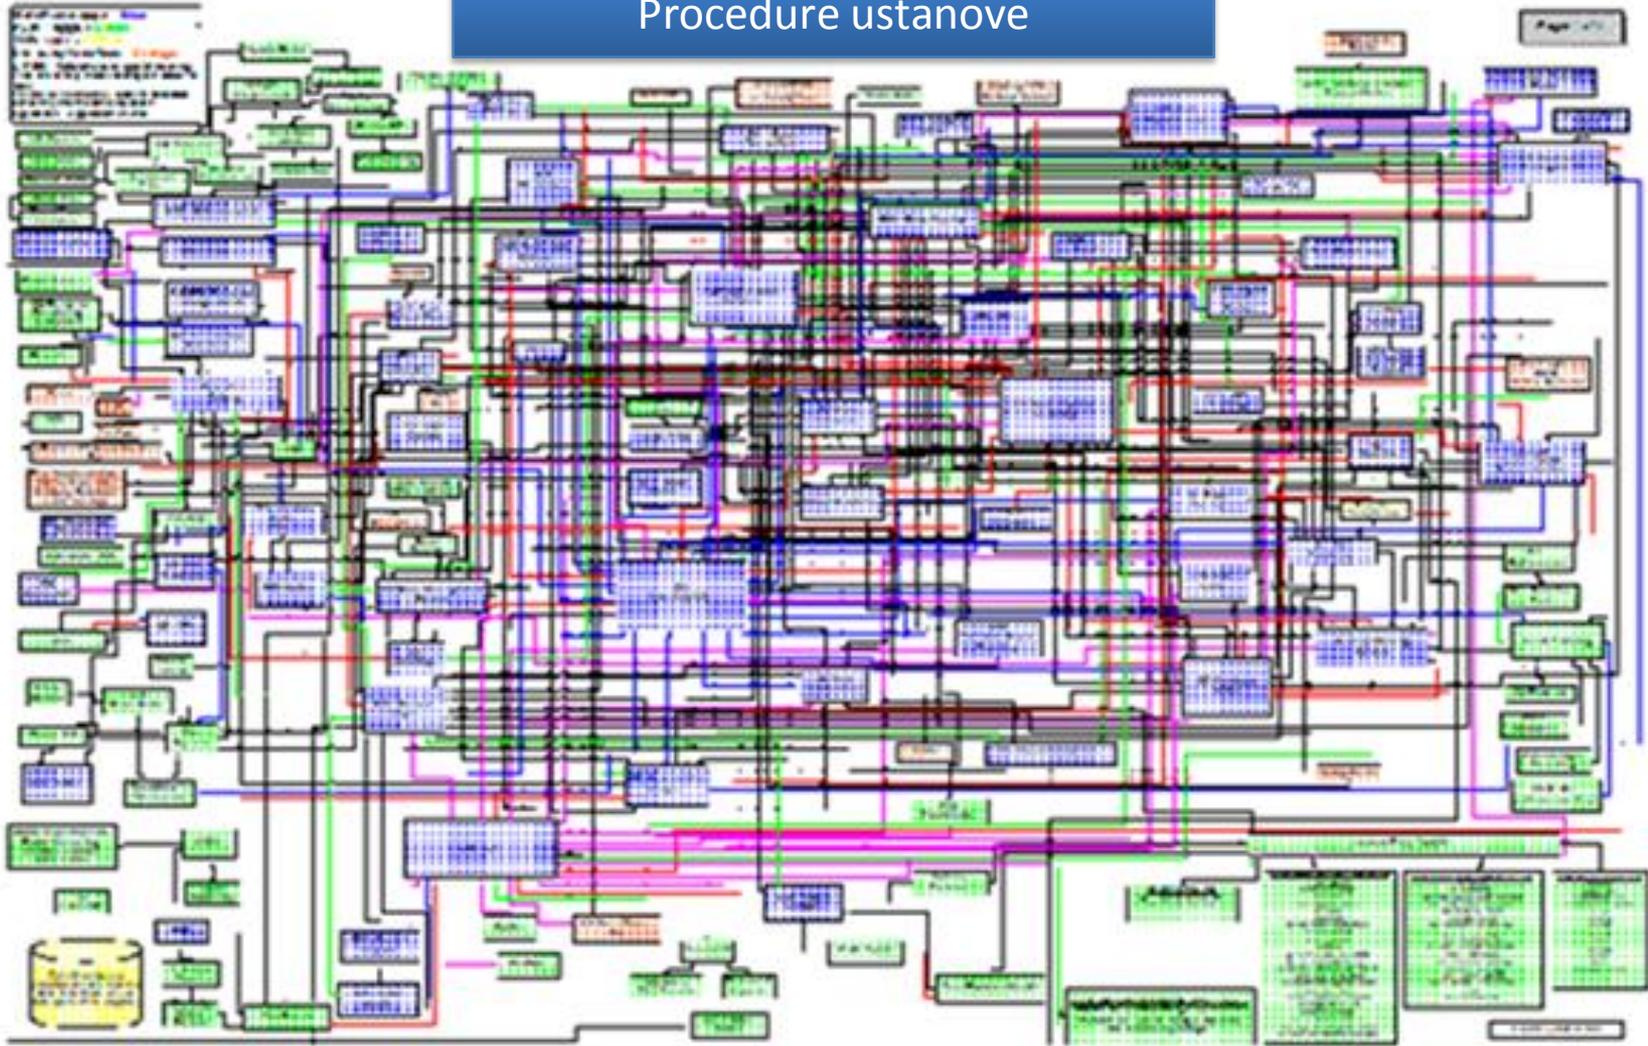

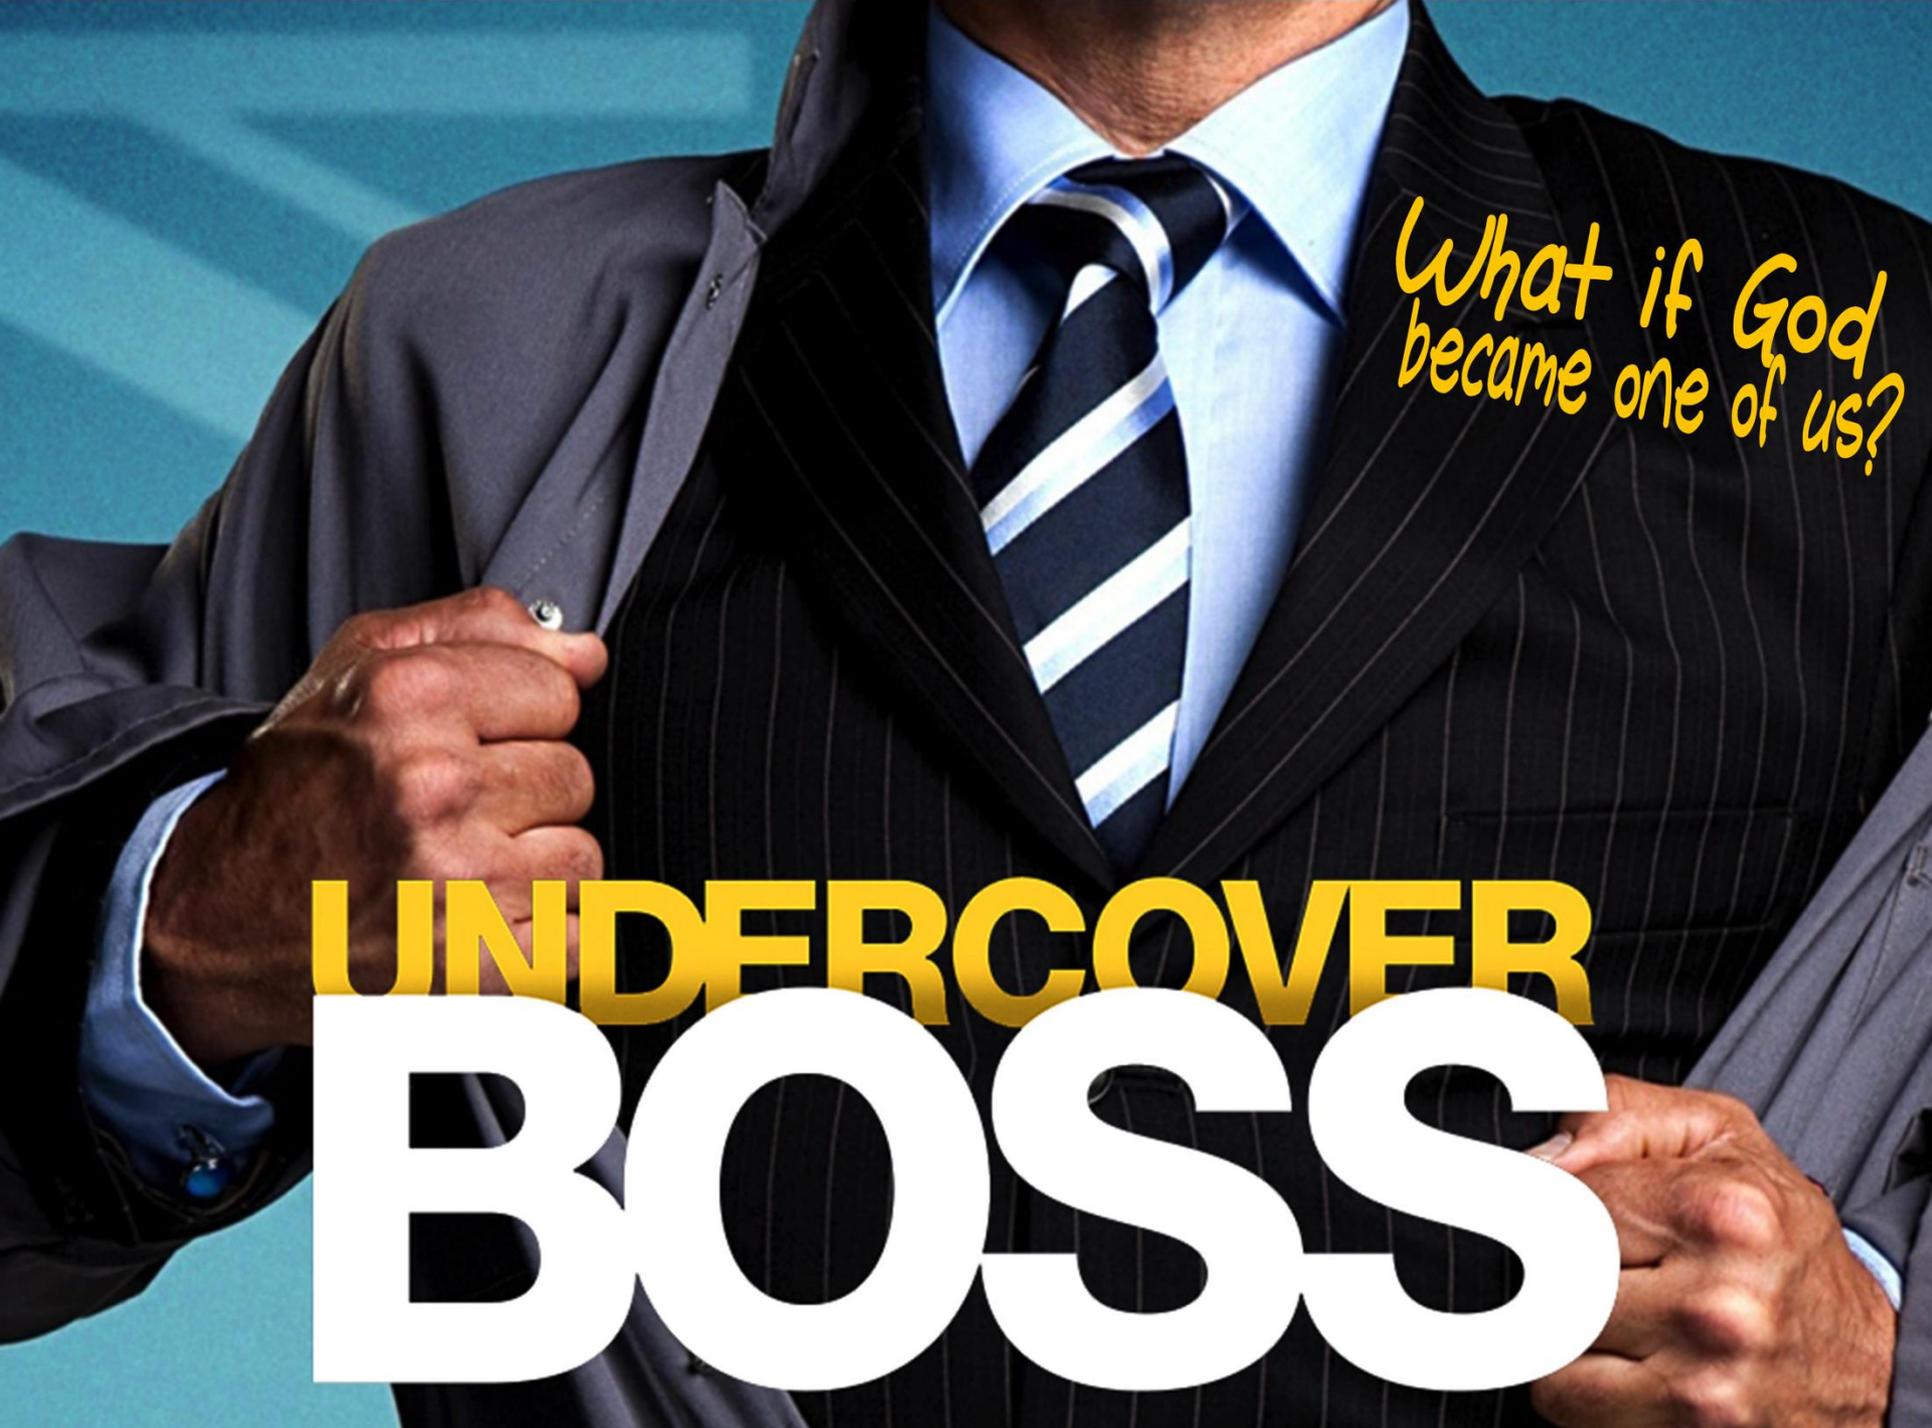

Veliki sustav = skup nepoznatih ljudi
Teško je poznavati sve kolege
Teška dostupnost do nadređenih
Teško probijanje ideja prema gore

Procedure ustanove

*What if God
became one of us?*
